## THE FOLLOWING ARE THE OFFICIAL CAMEO 3 DESCRIPTIONS:

### The Silhouette CAMEO® 3 (Blurb)

The Silhouette CAMEO® is the ultimate DIY machine. It uses a small blade to cut over 100 materials, including paper, cardstock, vinyl, and fabric up to 12 in. wide. The CAMEO has the ability to register and cut printed materials and is PixScan™ compatible. What does this mean for you? It is our machine that has the largest cutting space and is most versatile in the materials it can cut.

### Silhouette CAMEO® 3 (Short)

The Silhouette CAMEO® plugs into your PC or Mac® just like your home printer. However, instead of printing, your CAMEO uses a small blade to cut paper, cardstock, vinyl, fabric, and other material up to 12 inches wide and 10 feet long. Use designs and fonts from the Silhouette Design Store or make your own to create custom projects. The CAMEO has the ability to register and cut printed materials and is PixScan™ compatible.

Silhouette CAMEO® boasts the following features:

- Dual-carriage for multi-tool use
- Higher 2 mm clearance to cut thicker materials
- Touch screen with mini tutorials
- Barcode scanning feature for repeated cut jobs
- Included Bluetooth® (or Bluetooth® compatibility)
- Matless cutting capability
- Compatible with Print & Cut and PixScan™ technology.

Contains:

- Silhouette CAMEO® cutting machine
- Silhouette Studio® software (download from [silhouetteamerica.com](http://silhouetteamerica.com))
- Power cable and USB cable
- 12-Inch Cutting Mat
- AutoBlade cutting blade
- One month Basic Subscription to the Silhouette Design Store
- Crosscutter
- 100 FREE digital designs to begin creating right away (via emailed code)

## Silhouette CAMEO® 3 (Long)

The Silhouette CAMEO® allows DIY enthusiasts the freedom to design, cut, and create what they want. The Silhouette CAMEO® plugs into your PC or Mac® just like your home printer. However, instead of printing, your CAMEO uses a small blade to cut paper, cardstock, vinyl, fabric, and other material up to 12 inches wide and 10 feet long. The machine can register and cut printed materials and is PixScan™ compatible.

Like the Silhouette CAMEO®s of the past, the CAMEO 3 will offer the same quality and precision that Silhouette is known for along with some additional features.

Silhouette CAMEO® 3 boasts the following:

- Dual-carriage for multi-tool use
- Higher 2 mm clearance
- Included Bluetooth® (or Bluetooth® compatibility)
- AutoBlade and the Deep-Cut Blade compatibility
- Sleek new look with touch screen located under the lid
- Barcode scanning feature for repeated cut jobs
- Push release blade holders
- Adjustable slider bars to accommodate various media sizes
- 12-inch cutting width
- Crosscutter on back of unit for cutting materials fed directly from a roll
- Silhouette roll-feeder compatibility
- Built-in optical scanner for Print & Cut applications
- PixScan™ technology compatibility
- Full-color LCD touch-screen with mini tutorials for easy navigation and use
- USB port for reading and cutting saved files directly
- Blade and other storage compartments
- Power-saving sleep mode
- PC and Mac compatibility
- Lightweight body
- Matless cutting capability
- Fiberglass-reinforced synchronization belt to keep cuts precise
- Guide marks emphasized in Silhouette blue for easier visual alignment of mat and materials during loading
- Access to the Silhouette Design Store, a marketplace of over 85,000 ready-made designs
- Out of the box, the Silhouette CAMEO® comes with the following:
  - Silhouette CAMEO® cutting machine
  - Silhouette Studio® software (download from [silhouetteamerica.com](http://silhouetteamerica.com))
  - Power cable and USB cable
  - 12-Inch Cutting Mat
  - AutoBlade cutting blade
  - One month Basic Subscription to the Silhouette Design Store
  - Crosscutter
  - 100 FREE digital designs to begin creating right away (via emailed code)

## The Silhouette CAMEO® 3 (Bullets)

- Cuts a variety of material including vinyl, paper, cardstock, fabric, and other materials up to 12 inches wide and 10 feet long.
- Plugs into your home computer and uses the powerful Silhouette Studio® design software to create your projects.
- Features a dual-carriage for multi-tool use and a higher 2 mm clearance to cut thicker materials.
- Is the only Silhouette compatible with the self-adjusting AutoBlade.
- Features or is compatible with Bluetooth® technology for wireless cutting.
- Is compatible with Print & Cut and PixScan™ technology.
- Includes Silhouette CAMEO® cutting machine, Silhouette Studio® software (download from [silhouetteamerica.com](http://silhouetteamerica.com)), power cable and USB cable, 12-Inch Cutting Mat, AutoBlade cutting blade, one month Basic Subscription to the Silhouette Design Store, crosscutter, and 100 FREE digital designs (via emailed code).

## The Silhouette CAMEO® 3 (Product Description)

The Silhouette CAMEO® plugs into your PC or Mac® with a USB cable, just like your home printer. But your CAMEO doesn't print—it cuts! Your machine uses a small blade to cut paper, cardstock, vinyl, fabric, and other material up to 12 inches wide and 10 feet long. Use designs and fonts from the Silhouette Design Store or make your own to create custom projects. The CAMEO features a dual-carriage, 2 mm clearance, matless cutting, Bluetooth® technology, and the ability to register and cut printed materials. It is compatible with PixScan™, the AutoBlade, and a variety of other Silhouette products.

### *Dual-carriage*

The CAMEO 3 features a dual-carriage. The tool holders are marked with red circle on the left and a blue circle on the right. Insert your tools (such as an AutoBlade and a sketch pen) into the corresponding tool holders as you have assigned in your Cut Settings in Silhouette Studio® and watch your machine perform two different functions in one cut job. Using the left-hand tool holder, the CAMEO 3 is the only machine compatible with the AutoBlade, Silhouette's self-adjusting blade.

### *Bluetooth*

The CAMEO 3 is Bluetooth® compatible and allows wireless communication. The Silhouette CAMEO® "Bluetooth® Edition" includes a pre-installed Bluetooth® adapter. For all other CAMEO editions, Bluetooth® is enabled, but you will need to install a Bluetooth® adapter. Using Bluetooth® technology, your CAMEO can receive cut jobs by devices other than your computer. This also means your CAMEO will be able to receive cut jobs without being attached to your computer.

### *Increased Clearance*

CAMEO 3 has an increased clearance level (2 mm) compared to previous versions of the CAMEO. This allows you to cut thicker materials using the Deep-cut Blade.
